

Public Notice Concerning Tree Limb and Grass Clipping Disposal

Due to the restructuring of the City's bid documents and need to reduce the cost of construction for the new City of Alva Sanitation Transfer Station the current location for tree limb and grass clipping disposal will be closed. The current location will be fenced off to allow for clearing and pad site/road construction. Please refrain from disposing of your tree limbs and grass clippings at the current location. Staff has identified another location on the premises to dispose of tree limbs and grass clippings. There will be signage placed on site to direct citizens to the new location. Thank you for your help and understanding.
